

CRM Dashboard Project Synopsis

Student: Sushma Rakesh

Project Title: CRM Dashboard

Objective: Build an interactive CRM dashboard in Excel/Google Sheets to monitor leads, sales performance, customer status, and KPIs.

Tools: Microsoft Excel / Google Sheets, Charts, Pivot Tables, Conditional Formatting.

Modules: Data Entry, KPI Cards, Leads by Source, Sales Trend, Customer Status, Dashboard Filters.

Workflow: Collect CRM data, clean it, create pivot tables, build charts, design dashboard, validate metrics.

Outcome: A user-friendly dashboard enabling quick business insights and sales monitoring.

Future Enhancements: Connect live data sources, automate refresh, integrate Power BI.
